Letter of Appreciation for FundRace

The Seigo Kai Karate-Do Association of India is delighted to support with FundRace and use its sports funding platform as an extension to financially support athletes in need. We plan to reach out to karate players all across India to assist them in getting financial aid and sponsorship based on their financial needs.

With a lot of youngsters pursuing karate, we believe that these young talents must be nurtured from the ground up. To expand karate participation, players should have the chance to compete in the sport, which will improve competitiveness and lead to more talent scouting. We aim to use this internet platform to possibly provide funds to aspiring karate-kas so that they may afford the necessary equipment they need to participate and train successfully.

FundRace, unlike scouting organizations, ensures that every kid, regardless of performance, has the chance for support, allowing them to follow their athletic aspirations further.

Its user-friendly website, as well as its streamlined and simplified fundraising technique for athletes and organizations, ensure that our contributions have a major impact on the lives of athletes by giving information on how our money is used.

We aim that FundRace reaches as many karate players as possible within and beyond our reach, supporting them in reducing financial barriers from their sport.

We wish them all the best.

Shihan Tarun Chakrabarty
President
