

Letter of Appreciation

With cricket being the most popular and sought-after sport in India, it is essential for aspiring cricketers to receive the means to excel in their sporting careers. "FundRace" has understood this need and is helping not just the future cricketers of India but also providing financial help to the upcoming stars of various other sports. The team is doing a tremendous job at raising funds for athletes while also connecting some of them to sponsors.

"FundRace" has made fundraising for athletes and organizations a simpler and more efficient procedure, ensuring that our donations have a positive influence on the life of a sports person by providing information on how our money is being used.

Because they provide evidence of identification and sport, it is safe to conduct purchases and donations using them. The website's user-friendly layout, which displays the athlete's profile and the reason they need the money, assists us in deciding who to support and assures that no *campaign is fraudulent*.

We hope that "FundRace" will give financial support to as many athletes as possible and that we will be able to reach out to as many young rising cricketers as possible through our extensive reach and combined efforts. We suggest that it should be used as an extension for financial assistance to sports organizations throughout India. This would not only help the various sports flourish, but it will also improve our country's sporting culture.

Vinod Tihara

secretary

Delhi & District Cricket Association
